## OBJECTIVE

BCA graduate and passionate software developer with strong fundamentals in data structures, algorithms, and system design. Proficient in full-stack web development using MERN and MEAN stacks. Eager to build scalable, distributed systems and contribute to high-impact projects at Amazon.

## EDUCATION

2021 – 2024 **Bachelor of Computer Application(BCA)**  
Kannur University, Kerala  
CGPA : 7.5

## PROFESSIONAL EXPERIENCE

2025/03 – Present **Junior Web Developer**  
Nexpression - Internship

- Developing and maintaining web applications using the MERN stack.
- Collaborating with cross-functional teams to improve user experience and application performance.
- Implementing secure authentication and authorization mechanisms.

2024/05 – 2024/12 **MERN Stack Developer (Intern)**  
Luminar Technolab

- Developed dynamic user interfaces using React, ensuring modularity and reusability.
- Utilized Git and GitHub for version control and team collaboration.

**Freelance Web Developer**

- Developed a College Management System website with full-stack CRUD functionalities.
- Built multiple full-stack applications with responsive design and optimized performance.

## TECHNICAL SKILLS

**Languages:** JavaScript, Python, C, C++, Java (basic)

**Frontend Development:** React.js, Angular, JavaScript, Redux, HTML, CSS, Bootstrap, Tailwind CSS

**Backend Development:** Node.js, Express.js, RESTful APIs, Authentication (JWT)

**Database Management:** MongoDB, Mongoose, MySQL

**Tools & Version Control:** Git, GitHub, Vercel, Postman

**Other Skills:** Responsive Web Design, Problem Solving, Collaboration, UI/UX Design

## PROJECTS

2025/03 **COLLEGE MANAGEMENT SYSTEM**   
Freelance Web Developer

- Developed a College Management System website using the MEAN stack with a fully functional admin dashboard.
- Successfully hosted the website as a freelance project, featuring complete CRUD operations and role-based access.
- Tech Stack : Angular, Node, Express, MongoDB

2025/01 **E-COMMERCE WEBSITE** 

- Built a full-stack e-commerce platform with product browsing, filtering, and multiple payment options (COD, Stripe, Razorpay).
- Admin panel for inventory management.
- Tech Stack: React.js, Node.js, Express, MongoDB

2024/06 **REST COUNTRIES API WEB APP** 

- A web app displaying country details (flags, population, region) using the REST Countries API.
- Tech Stack: HTML, CSS, JavaScript, REST API

2025/01 **INVENTORY MANAGEMENT SYSTEM** 

- Developed a complete inventory system with CRUD operations, search by name, and category filtering.
- Tech Stack: React.js, Node.js, Express, MongoDB

## CERTIFICATES

**ME(A)RN Stack Development**  
Luminar Technolab, calicut

## STRENGTHS & ACHIEVEMENTS

- Strong grasp of **data structures and algorithms** with practical implementation in project work.
- Proven ability to **solve complex technical problems** independently and in teams.
- Consistently committed to **learning and adapting** to new technologies.
- Experience working in **agile environments** and using industry practices like version control and API testing.
