OBJECTIVE

Detail-oriented and results-driven Full-Stack Web Developer specializing in MERN / MEAN / Next.js frameworks. Experienced in designing and developing scalable, responsive, and high-performance web applications with a strong focus on clean architecture, reusable components, and optimized RESTful APIs. Passionate about UI/UX enhancement, secure authentication, and agile team collaboration. Eager to contribute innovative solutions that enhance user experience and business performance in dynamic development environments.

PROFESSIONAL EXPERIENCE

08/2025 – Present Malappuram, Kerala	Software Developer (Trainee) <i>Think Forge Global</i> Tech Stack: Next.js, Tailwind CSS, Bitbucket, Jira, Slack, Agile/Scrum <ul style="list-style-type: none">Contributing to the development and UI enhancement of the MorfinFX trading platform, implementing Next.js-based components for speed and performance.Built and optimized dynamic single-page applications (SPAs) with Next.js and React hooks, improving rendering speed and SEO optimization.Collaborated with cross-functional teams using Jira, Slack, and Bitbucket under Agile methodologies, ensuring timely feature delivery and sprint efficiency.Integrated RESTful APIs for data-driven functionalities, ensuring efficient state management and consistent UI behavior.Participated in code reviews, bug tracking, and performance optimization to maintain high-quality production standards.
03/2025 – 08/2025 Ernakulam, Kerala	Junior Web Developer Intern <i>Nexpression Private Limited</i> Tech Stack: Angular, React.js, Node.js, Express.js, MongoDB, Bootstrap, Tailwind CSS <ul style="list-style-type: none">Developed and maintained scalable, full-stack web applications using both MERN and MEAN stacks.Created modular and reusable components, improving development efficiency and ensuring responsive UI across devices using Bootstrap and Tailwind CSS.Collaborated with UI/UX designers and backend teams to enhance user experience and application performance through optimized frontend logic and efficient REST API consumption.Implemented secure user authentication and authorization using JWT and RBAC to ensure data protection and controlled resource access.Used Git, GitHub, and Postman for version control, code collaboration, and API testing, streamlining the development workflow.
03/2025 Remote	Freelance Web Developer Project: College Management System — MEAN Stack <ul style="list-style-type: none">Developed a College Management System with admin dashboards, secure multi-role logins, and CRUD operations.Managed the entire project lifecycle, from client communication to deployment and maintenance.Integrated real-time REST APIs and ensured responsive UI using Angular and Bootstrap.

EDUCATION

2021 – 2024	Bachelor of Computer Application (BCA) <i>Kannur University, Kerala</i> CGPA : 7.5
-------------	---

TECHNICAL SKILLS

Frontend Development — React.js, Next.js, Angular, JavaScript (ES6+), Redux, HTML5, CSS3, Bootstrap, Tailwind CSS, shadcn/ui

Backend Development — Node.js, Express.js, RESTful APIs, Authentication (JWT, RBAC)

Database Management — MongoDB, Mongoose, MySQL

Tools & Collaboration — Git, GitHub, Bitbucket, Vercel, Postman, Jira, Slack, Agile / Scrum

Core Competencies — UI/UX Implementation, API Integration, State Management, Responsive Web Design, Problem Solving, Code Optimization, Cross-Team Collaboration

CERTIFICATES

ME(A)RN Stack Development

Luminar Technolab, calicut

2024/05 - 2024/12

Completed a comprehensive MEARN stack development course covering MongoDB, Express.js, Angular, React.js, and Node.js. Gained hands-on experience in building full-stack web applications, RESTful APIs, user authentication, and responsive UI design using Bootstrap and Tailwind CSS, with version control using Git and deployment via Vercel.

PROJECTS

03/2025

COLLEGE MANAGEMENT SYSTEM [↗](#)

Freelance Web Developer

Tech Stack: Angular, Node.js, Express.js, MongoDB

- Developed a comprehensive web-based College Management System using the MEAN stack.
- Built a responsive and intuitive admin dashboard to manage students, faculty, courses, and placements.
- Implemented full CRUD operations for all modules, enhancing data accessibility and management.
- Integrated role-based access control (RBAC) to ensure secure login and user-specific access.
- Optimized UI/UX for mobile devices, ensuring consistent performance across all screen sizes.
- Successfully deployed the application as a freelance project with real-time API integration.

01/2025

E-COMMERCE WEBSITE [↗](#)

Full-Stack Developer

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a full-stack e-commerce web application enabling product browsing and filtering.
- Integrated secure payment gateways including Cash on Delivery (COD), Stripe, and Razorpay.
- Developed a feature-rich admin panel for managing inventory, orders, and product details.
- Implemented API-based communication between frontend and backend for dynamic data updates.
- Ensured responsive design using modern UI libraries for seamless user experience on all devices.
