Deployment – Vercel, Render, Netlify

Concepts – Responsive Design, SaaS Applications, API Integration, SEO Optimization, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer

06/2025 – present

Think Forge Global LLP

Project: Zyvest Capital – Trading Platform

- Developed scalable SaaS-based applications supporting Admin, Employee, and User roles.
- Built responsive dashboards with financial analytics and performance monitoring.
- Integrated REST APIs for portfolio management and dynamic data handling.
- Developed reusable and maintainable components using React.js and Next.js.
- Improved application performance and loading speed.
- Implemented secure authentication and role-based access.
- Worked in Agile methodology using Git, Jira, and Bitbucket.

Web Developer Intern

03/2025 – 05/2025

Nexpression Pvt Ltd

Project: Foodyko – E-commerce Platform

- Built full-stack applications using the MEAN stack.
- Developed reusable Angular components.
- Implemented secure authentication using JWT and RBAC.
- Integrated APIs for real-time product and order management.
- Improved application responsiveness and performance.

Full Stack Developer

02/2025 – 03/2025

Freelance

Project: College Management System

- Developed a full-stack system with Admin and User modules.
- Built secure login and authorization systems.
- Implemented CRUD operations for managing student and course records.
- Designed responsive dashboards for multiple devices.
- Integrated REST APIs for efficient data handling.

PROJECTS

Trading Platform – Zyvest Capital

Tech: Next.js, React.js, Tailwind CSS, REST APIs

- Developed a scalable multi-role trading platform supporting Admin, Employee, and User dashboards.
- Built analytics dashboards for portfolio monitoring and performance tracking.
- Integrated REST APIs for dynamic trading data, reporting, and portfolio management.
- Optimized application performance and responsiveness for seamless user experience across devices.

Business Website - Kalangara Paint House [↗](#)

Tech: React, Node.js, Supabase

- Developed a business website with customer enquiry and service management functionality.
- Integrated WhatsApp API for real-time communication and lead generation.
- Implemented image upload and data management features with backend integration.
- Designed responsive and user-friendly interfaces for improved customer experience.

Corporate Service Website – Chill Master UAE [↗](#)

Tech: React, Tailwind CSS

- Developed corporate HVAC website with modern and responsive UI/UX
- Implemented enquiry and quotation request system for lead generation
- Built clean, scalable frontend ensuring smooth user experience

Salmara Ayurveda E-Commerce Platform [↗](#)

Tech Stack: Shopify, Next.js, Node.js, Express.js, Supabase

- Developed a Shopify e-commerce platform using Next.js, Node.js, Express.js, and Supabase.
- Built responsive customer-facing and admin management interfaces.
- Integrated Shopify APIs for product, order, and inventory operations.
- Enhanced website performance, SEO, and user experience.

College Management System – Holy Cross College

Tech: Angular, Node.js, Express.js, MongoDB

- Developed a full-stack management system with Admin and User modules.
- Implemented secure authentication and role-based access control using JWT.
- Built CRUD functionalities for managing students, faculty, and academic records.
- Designed responsive dashboards and integrated APIs for efficient data handling.

EDUCATION

Bachelor of Computer Applications (BCA)

2021 – 2024

Kannur University

CGPA : 7.5

COURSES

MEARN Stack Development

05/2024 – 12/2024

Luminar Technolab

- Completed an intensive MEARN Stack Development program with hands-on training in MongoDB, Express.js, Angular, React.js, and Node.js.
- Developed full-stack web applications using modern frontend and backend technologies.
- Built and integrated RESTful APIs for efficient data handling and communication between systems.
- Implemented authentication and authorization features using JWT for secure user access.
- Created responsive and user-friendly interfaces following modern UI development best practices.
